PROFILE

Seasoned Front-End Web Developer with a proven track record of leading cross-functional teams and driving product development from concept to launch. Highly proficient in agile methodologies, ensuring efficient and successful project delivery.

EDUCATION

Institute of Technology and Management

Bachelor of Technology in Computer Science and Engineering

2020 – 2024

Gorakhpur, U.P

EXPERIENCE

Frontend Developer

May 2024 – Present

Infosoft Network

- Contributed to the design and implementation of user-centric web applications using React, HTML, CSS, and JavaScript; participated in code reviews and merged Pull Requests, ensuring top-notch quality and functionality.
- Gained expertise in front-end development by utilizing GSAP for animations, Firebase for backend services, and Redux for state management; focused on enhancing code reusability and efficiency across projects.
- Collaborated closely with design teams to transform prototypes into high-performance, functional code, while optimizing web performance and conducting thorough debugging to ensure seamless and efficient user experiences

PROJECTS

[FireChat](#) | *React, FireBase* ([live](#))

Built a real-time chat app using React and Firebase with friend search, profile management, and read receipts. Utilized Firestore for secure data storage and efficient message handling. Designed a responsive UI for a seamless experience.

[Youtube](#) | *React, TailwindCSS, Redux* ([live](#))

Built a complete YouTube clone with an optimized search bar, offering a faster and more efficient search experience compared to major websites. Also integrated a fake live chat feature, enhancing user engagement and interaction.

TECHNICAL SKILLS

Languages: Java, Python, TypeScript, JavaScript, HTML, CSS

Frameworks and Libraries: React, TailwindCSS, Bootstrap, Redux, GSAP

Developer Tools: VS Code, Git, GitHub, Linux, ChatGPT, Firebase

CERTIFICATIONS

Front End Web Development Ultimate Course 2021

Complete Responsive Web Development: 4 courses in 1
